

# NETTING

## EUROLINE PREMIUM PLUS®

Euroline Premium Plus® is the latest step forward in the new generation of netting materials available from Euronete. Euroline Premium Plus® Netting will provide the desired characteristics for trawls:

- Single mesh instead of double can now be used in larger cod ends
- Smaller twine can be used in existing trawls so greater towing speed can be achieved.
- Lower fuel consumption.
- Much more economical than knotless netting material and only slightly higher than standard Euroline® netting.
- Clean fishing, easy handling and good knot stability.
- Good abrasive resistance and stable elongation.
